SAVING WITH AN ALSP

TAKE ADVANTAGE OF TECHNOLOGY & SPECIALIZED EXPERTISE

Adding ALSPs to the mix (Alternative Legal Service Providers, "law companies" or whatever you want to call them) can make legal teams more efficient and save resources. How much is saved? To find out, we analyzed metrics for 18 months of subpoena compliance and managed review services we handled for one of our insurance industry clients.

GROSS # OF POTENTIAL RECORDS TO REVIEW: 4.7 MILLION

TARGETED DATA COLLECTION

18 % OF RECORDS
841,223 RECORDS

Savings and efficiency starts at the top. Working with clients and leveraging technology we craft targeted data collections. Rather than collecting all data possible, from the start, we aim to collect only data with potential value or relevance to the legal project.

$17,600 SAVED IN PROCESSING CHARGES

EARLY CASE ASSESSMENT

6.1 % OF RECORDS
286,364 RECORDS

Another area of potential savings is a preliminary "ECA" to identify surplus data via removal of duplicates, irrelevant file types, and through the use of AI.

$26,640 ANNUAL HOSTING SAVINGS

FIRST PASS REVIEW

1.2 % OF RECORDS
56,658 RECORDS

The preliminary document and data review is one of the most significant places ALSPs save money and add value. Not just because of lower costs, but familiarity with technology, documented workflows, and quality control procedures.
